HUBER NEWS

EDITION 1 | 2025

Georg Huber,
CEO

Dear Mr. Schmid,

We have always been committed not only to providing our customers with machines, but also to ensuring that their investment remains as efficient over its lifetime as it was on day one.

At a time when the quality of infrastructure is a hot topic, safety is becoming increasingly important. We are making a valuable contribution here with our new burglar-resistant manhole covers.

We are also investing in the future at our headquarters in Berching and will be building a new, modern office and a training centre to ensure that we can continue to provide our first-class support to our customers.

Yours sincerely,

Georg Huber
