Instructions for use and testing record

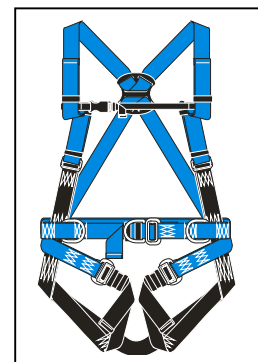

for

full body harnesses

Type AX 40 / AX 41 / AX 60

as per EN 361:2002

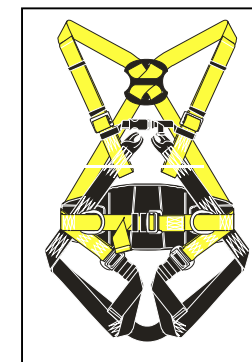

as per EN 358:2002

Type AX 40 S

Type AX 41 S

Type AX 60

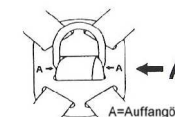

Full body harnesses AX 40, AX 41 and AX 60 are manufactured principally from 45 mm breadth polyester webbing.

During use, it should always be ensured that all closures are correctly closed and that the webbings fit tightly to the body.

The attachment loops in the chest area of the AX 60 full body harness must be used only together as attachment eyes.

Basic configuration AX 40 / AX 41 / AX 60

- Attachment eye (A) in the back
- Attachment eye (A) in the chest area (only AX 60)
- 2 attachment eyes on the body harness
- Length adjustment of the shoulder straps
- Length adjustment using steel friction clasps on the thigh straps
- Chest strap made of 25 mm material with plastic push-in closure
- Back support (only AX 41/AX 60)
- Universal size

Special models

AX 40 S / AX 41 S / AX 60 S

- Guided type fall arrester eye on the body harness

AX 40 CS / AX 41 CS / AX 60 CS

- Rapid click closures on the body and thigh straps

AX 60 ECS

- Webbing in shoulder area made from partially elastic webbing, red-black

Full body harness
